Bill  
NO  
PI

Bruce

Let me know what you need me to do this week on this case.

Did the PI come through?

I know Doris is (or was) fond of a guy named Doc Chapman – I have find him to be very odd and he does not really fit what we are looking for.

Remember we have the office in Woodstock if you want to meet with the son – or I can meet with him – or any other witnesses who reside in that area.

Hope you had a good holiday.

I'll call you Monday. Got word 11/25 that Bill Jones will not be able to be PI. John Metzler, witness was arrested on abduction and a&b - domestic. Met with Donna yesterday - went over ME and crime scene photos. Also discussed psych option and punishments under manslaughter. She wants exoneration, not lesser offense. Met with her sister last week as well and I am looking to catch-up with Kris this coming week.

Doc:

I would like you to speak to/track down the following witnesses:

Pawn Shop witness that we discussed yesterday.

Karen Taylor: saw bruising on D approx May 17, 2008 335-2368

Rebecca Sherrill as we discussed previously. 742-4296

Gary Bauserman 477-2942 or 335-6742. Donna says this man saw her at a bar "The Pub" with a black eye. Not sure if she advised him where this came from.

Kelly Clark - was an inmate Donna knew in jail 820-2697. Apparently she was abused by Dustin and dated him for two years.

Trish Wood: 477-2390. Donna claims that she is a friend of Dustin and claimed to her that Dustin forced her to have sex. 477-2390. This should be the lowest priority as I find it highly unlikely that a "friend" of the deceased is going to be helpful, much less want to say he was sexually abusive.
